# Submit Your Draft Project M6

Group Members

| Student Group 14065 |
| --- |
| ZI HAN LIM |

Carefully read and follow the submission instructions below:

**Before the submission deadline:**

- While completing the project, designate one group member who will upload and submit the group work project on behalf of your group.
- Don't wait until the last minute to upload your work: Make sure to use Turnitin and check your similarity report to avoid plagiarism.
- Remember, the submitting group member can (re-)upload an updated and improved version of your work up to 5 times prior to the submission deadline.
- Before the submission deadline, use Turnitin to check your similarity report, and then upload an updated version of your submission if necessary

**Ready to submit:**

- If your submission is composed of multiple files, upload the PDF report separately from the zipped folder that includes all additional files (spreadsheets with data, charts, code).
- Make sure you also submit any **source code generated** within the capstone project, with appropriate comments and descriptions
- Make sure that the submitting group member has uploaded the final version of your project.
- After the deadline, your submission can no longer be changed by any of the group members. Groups who have not made any submission will not be able to upload their work.

Grading Rubric (15.4% or 130 + 24 points for group collaboration)

| Draft Project<br>60 Points | Source Code<br>50 Points | Writing and Formatting<br>20 Points |
| --- | --- | --- |
| The Draft Project is clear, concise, and:<br>• Includes some development of all parts<br>• Clearly delineates the objective of the project, the progress, the steps remaining, current results and analysis etc.<br>• Clearly demonstrates that the project is on schedule to be completed by the deadline<br>• Lists the remaining tasks and the schedule for the outstanding work. | The submitted source code in the shared repository/online notebook has been further developed after the previous submission and:<br>• Includes appropriate comments to illustrate the code<br>• Makes a detailed discussion of the results obtained and more importantly its significance and the inferences drawn. | A submission that looks professional should include:<br>• Axes, labels, and scales in graphs<br>• No significant grammar errors or typos<br>• Organized, clear structure, and easy to read document<br>• Proper citations and bibliography using MLA format |

**Submission Deadline:** May 12, 2026 at 8:00 AM GMT+8
